Lakshmi Prasanna Saladi

prasannasaladhislp@gmail.com|linkedin.com/in/lakshmi-prasanna-s|9182001659

Objective:

Aspiring Software Engineer with a strong foundation in computer science and hands-on experience in software development through academic projects and internships. Eager to apply my programming skills and problem-solving abilities to contribute to innovative software solutions. Motivated to learn and grow within a dynamic tech environment.

Education:

Master Of Computer Applications (M.C.A) – cgpa:8.2
B. V. Raju College, Bhimavaram, Andhra Pradesh
Duration: October 2023- May 2025

Bachelor of Science (Computers) – cgpa:9.32
S.K.S.D Women's College,Tanuku, Andhra Pradesh
Duration: November 2020- August2023

Technical Skills:

Programming Languages: Python ,SQL
Web Technologies: HTML, CSS, JavaScript,Django
Databases: MySQL,PostgreSQL
AI&MachineLearning Concepts : Natural Language Processing (NLP), Generative AI, Sentiment Analysis, RAG pipelines.
Academic Coursework: Data Structures, Computer Networks, Operating System, CloudComputing, OOP,DBMS.

Internship:

Company : V-Cube Software Solutions, Hyderabad, Telangana
Duration: April 2024-June 2024
Role: Web Development Intern

Projects :

1. Novel Recommendation Model Based On Users Trust and Ratings.

Description:

- Developed a web-based Novel Recommendation System using HTML, CSS, and JavaScript for the frontend and MySQL for database management enabling users to browse novels and provide personalized novel suggestions based on user ratings and trust levels.
- Implemented CRUD operations to manage novel details, user information, ratings, and related data stored in the MySQL database.
- Designed an interactive web interface allowing users to view novels, provide ratings, and interact with the recommendation system.

- Developed recommendation logic to analyze user ratings, trust levels, preferences and generate relevant novel recommendations.
- Integrated the frontend with the database to facilitate data retrieval, insertion, updating, and deletion, supporting smooth management of novel and user-related information.

Tools/Technologies: HTML,CSS,JavaScript,MySQL.

2. Sentiment Analysis System to Improve Teaching and Learning.

Description:

- Developed a web-based Sentiment Analysis System using Python and Django to collect and analyze student feedback.
- Implemented Natural Language Processing (NLP) and sentiment analysis techniques to process student feedback and classify it into relevant sentiment categories.
- Integrated MySQL database with the Django application to store and manage student feedback, user information, and system-related data.
- Developed separate Student, User, and Admin modules to support feedback submission, user management, and administrative operations.
- Implemented graphical representation of sentiment analysis results to provide meaningful insights into student feedback and help evaluate teaching and learning experiences.

Tools/Technologies: Python, Django, MySQL, NLTK, NLP, Sentiment Analysis, HTML, CSS, JavaScript.

Certifications :

NPTEL- Python for Data Science

Achievements:

- Won Third Prize in Nipuna Technical Quiz held in B.V.Raju College.
- Member of the Winning kho-kho team - College Annual Sports Meet.
